

LED dusk-to-dawn security lights are an energy-efficient solution for area lighting, parking lot lighting, street lighting, barn lighting, and pole lighting. This security light has 60 Philips LEDs that emit 5,000 lumens of natural white illumination, and the fixture is equipped with a refractor lens to prevent uplighting and reduce glare. A twist-lock 120-277 VAC photocell sensor is included to ensure that the fixture only illuminates at night. The 50-watt LED dusk-to-dawn light is designed to replace 250-watt metal-halide (MH) or mercury-vapor fixtures while lasting approximately 3 times longer. The weatherproof LED fixture has a brown die cast aluminum housing that is powder coated for rust resistance, and the housing is designed with an integral LED-cooling heat sink. A 15" mast arm is included, and the light can be surface mounted or pole mounted with included hardware. Operates within a 100-277 VAC range.

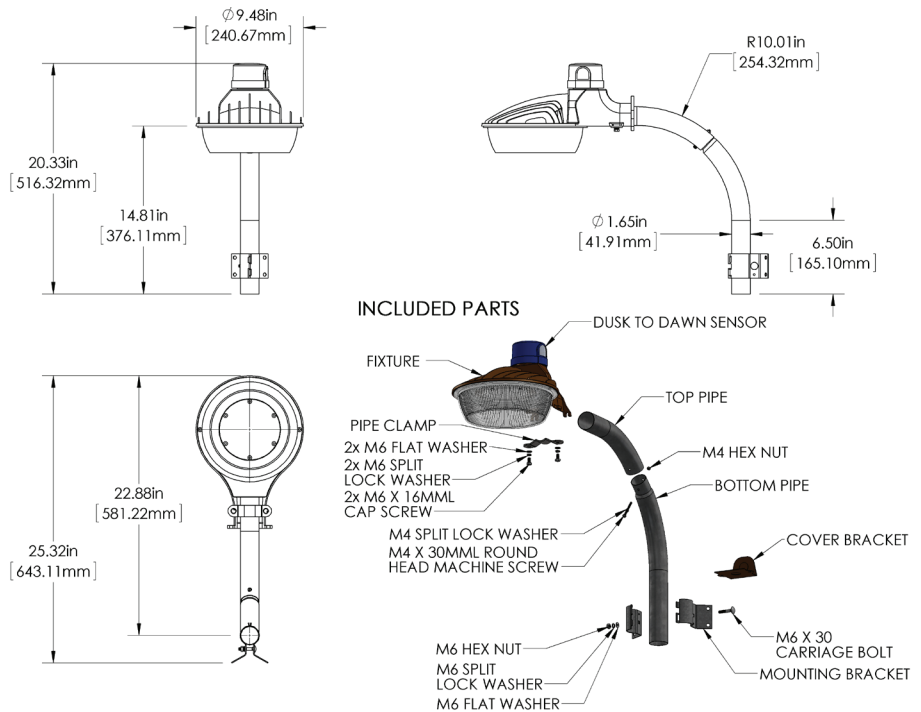

**Specifications**

DDAL-50K50W	
Intensity	5000 lumen
Operating Voltage Range	100-277 VAC
Beam Angle	120 Degree
Rated Input Power	50 Watts
Color Temperature	5000K
CRI	>80 CRI
Operating Temperature	-4°F-104°F (-20°C-40°C)
Efficacy	110lm/w
IP Rating	Weatherproof IP65
Warranty	5 year
