Weatherproof LED Eyelid Light

Safety and Notes

- Read all of these instructions thoroughly before use. Keep this instruction manual in a safe place for future reference.
- This lighting fixture is only suitable for a 12V AC or DC power supply.

Included Parts

- 1 - LED Eyelid Step/Deck Light
- 3 - M4 x 8mm screws with "O" ring
- 3 - M4 x 25mm screws with "O" ring
- 3 - Plastic Anchor

Installation

Note: If Running power wire on surface skip step 1. Bend power wire down and proceed to step 2.

1. Drill 1/4" hole where light is to be mounted. Feed power wire through hole.
2. Position light base ensuring LEDs are pointing down and reflector plate is level. Secure light base to mounting surface using M4 x 25mm screws with "O" rings and anchors if required (Fig. 1).
