

Important: Read all instructions prior to installation.

Included Parts

- 1 - High Bay Light
- 1 - Surface Mount Bracket Set

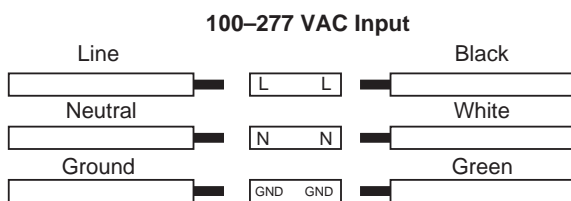

Optional Accessories

- 1 - Suspension Kit (FY-NSF-SMC)

Safety and Notes

- Product should be installed by certified electrician in accordance with applicable national, state, and local building and electrical codes.
- To reduce the risk of electric shock, ensure that the main power source and circuit breakers are switched off before performing any installation or wiring procedures. Ensure the fixture is properly grounded at all times.
- Avoid looking directly into the lamp when illuminated.
- Ensure all mounts are securely attached and will support the weight of the fixture. Failure to properly support the fixture may result in damage or injury, for which the manufacturer does not assume responsibility.
- Do not attempt to open the LED high bay light for any reason.
- Metal surface is hot while in operation, please don't touch fixture before it cools down adequately.

Specifications

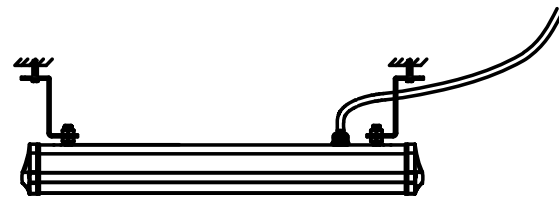

Model	FY-HB-600C-160WNC-L50K336D623
Operating Temperature	-40–122° F (-40–50° C)
Environmental Rating	IP69K

Check product label for specific electrical specifications related to installation. Improper installation will void warranty.

Installation

Surface Mounting

1. Measure the distance needed and secure the mounting brackets.
2. Attach the light to the mounting brackets.
3. Connect wiring.

Suspended Mounting

1. Measure the distance needed and secure hanging hooks.
2. Attach eye bolts to light.
3. Attach chain to light, then hang the light by attaching chain to the mounted hooks.
4. Connect wiring.
