

Important: Read all instructions prior to installation.

2007-2016 Jeep JK/JKU Wrangler 20" Single-Row LED Light Bar Brackets

Parts Included

- 2 - Light Bar Mounting Brackets
- 2 - Spacer Blocks
- 2 - Gaskets
- 4 - M8 x 25mm Button Head Screws
- 4 - M8 Flat Washers

Tools & Supplies Required

- T50 Torx bit
- 6mm Allen Wrench

Important

Please read instructions before beginning installation. Check the kit hardware against the kit contents. Be sure you have all the needed parts and know where they go. These brackets are designed to fit a 20" single-row LED light bar.

Application

Only fits **2007-2016 Jeep JK/JKU Wrangler** models.

Installation Instructions

1. Using a T50 Torx bit, remove the two factory bolts on the passenger hood hinge.
2. Place the gasket and spacer block onto the hood hinge. Make sure the gasket is between the spacer and hood hinge.
3. Install hood bracket on top of the spacer and secure with the button-head bolts and washers. Leave bolts slightly loose. Repeat on driver's side.
4. Install your Light Bar between the brackets with the hardware provided with the Light Bar.
5. Tight all M8 hood bolts.
6. Refer to the wiring harness instructions for electrical connections.

Dimensions

NOTE: THE DIMENSIONS FOR THIS PRODUCT ARE FOR REFERENCE ONLY. SOME BRACKETS ARE ABLE TO SHIFT TO DESIRED POSITION WHEN INSTALLED. USE BRACKETS WITH FIXTURE TO MARK HOLES BEFORE DRILLING.
