TECHNICAL SPECIFICATION

Application

- for making appealing, backlit decorations on the edge of signs and boards

Assembly

- panel held in the fixture by means of a series of expansion bolts hidden in the profile interior - on the surface of walls and ceilings it is mounted on the heads of bolts

Additional information

- panel thickness 6 mm (approx. 0.25")
- with the profile attached horizontally, the panel cannot stand from the ceiling more than 51 cm (20")
- when the profile is mounted vertically, the panel cannot protrude more than 51 cm (20") from the wall. Its vertical dimension may not be less than 60% of the horizontal dimension
- the length of the panel cannot exceed the length of the profile
- spece for LED strip: 0.44" / 11.2 mm

Turn off LED lights during peak day light hours in outdoor applications to avoid excessive heat buildup which will result in diminished LED life.
