

Linear Light Series

Industrial Linear LED Light Fixture

Project Name _____

Date _____

Type _____

Industrial LED Light

Linear LED lights are the heavy-duty, super-bright alternatives to traditional tube light fixtures. Perfect for commercial lighting, warehouse lighting, garage lighting, shop lighting, parking garage lighting, and more, the low-bay LED lights have powerful LEDs and high lumen outputs. These durable, weatherproof LED light fixtures consume much less energy than metal-halide (MH) fixtures. And with a life expectancy of 50,000 hours, the linear LED lights reduce costly repairs, disposal fees, and the need for replacements.

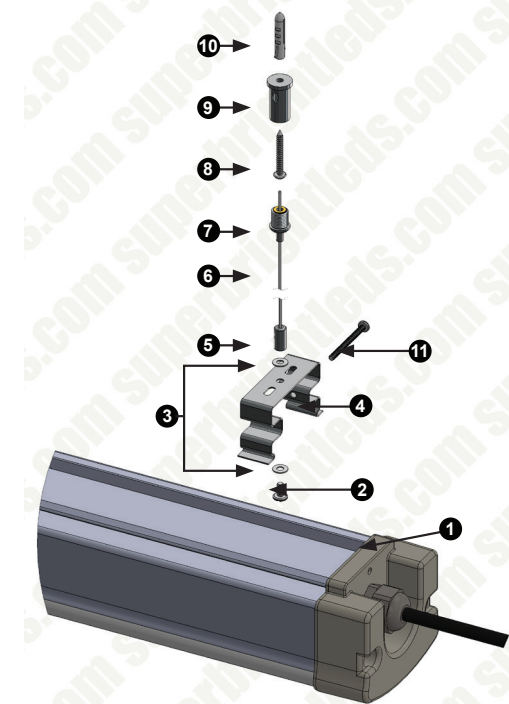

Specifications

TPLF-NW2-30	
Intensity	2700 lumen
