Safety and Notes

- This product should be installed by a certified electrician in accordance with applicable national, state, and local building and electrical codes.
 - To reduce the risk of electric shock, ensure that the main power source and circuit breakers are switched off before performing any installation or wiring procedures.
 - Avoid looking directly into the lamp when illuminated.
 - Ensure all mounts are securely attached and will support the weight of the fixture.
- Failure to properly support the fixture may result in damage or injury, for which the manufacturer does not assume responsibility.

Daisy Chain Installation

Motion Sensor Installation

Motion Sensor Installation (continued)

Install mounting hardware, controller, and sensor onto the board using provided hardware. Standoffs can be attached to controller first for easier installation.

FINAL ASSEMBLY

Wire with included instructions (VTS-SENSORKIT). Wire fixture in accordance with national, state, local and electrical codes.
